

## Daily Timetable Information

We are going to be setting 5 - 20minute lessons a day on Google Classroom for you to complete.

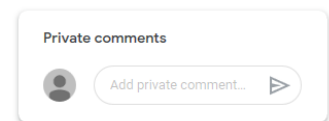

We recommend you do the lessons in the order of your normal school timetable, but this is optional and you can complete them in any order.

We have made a recommended daily timetable for you to follow which covers the times you would normally be in school. If you prefer to make your own daily timetable that is fine just make sure you have breaks in between lessons.

### If you need support or get stuck during a lesson: -

1. Use the comment section in your lesson to message the teacher to say you are stuck or don't understand the work.
2. The teacher will respond back to you during the day.
3. Leave that lesson and do an activity that you enjoy.
4. Have a go at your next lesson.

### Some alternative ideas if you get stuck or need something to do during your breaks: -

- Listen to Music
- Watch some TV
- Do some colouring/crafts
- Go for a walk
- Have a snack/make a drink
- Read a book
- Play a Game
- Do Something you enjoy
